DETAILED ACTION

Allowable Subject Matter

1. Claims 1 – 15 are allowed.
2. The following is an examiner's statement of reasons for allowance:
 - a. The primary reason for the allowance of claims 1 - 15 is the inclusion of combination of the limitations of a writing instrument comprising a substantially tubular element extending between a first end and a second end having a processor unit serving to activate the liquid spray system to enable the spray head to spray liquid onto the medium at a distance; measurement means couple to the processor unit, and movement detector means coupled to the processor unit wherein the measurement means acts without physical contact between the writing instrument and the medium to measure the distance between the spray head and the medium. It is these limitations found in each of the claims, as it is claimed in the combination, that has not been found, taught, or suggested by the prior art of record which makes these claims allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2853

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

Adams (U.S. 2003/0118391 A1) discloses a tubular writing instrument, Figure 1, element 1, a liquid reservoir, Figure 1, element 5, a processor unit, Figure 1, element 13, and a measurement means connected to the processor unit, Figure 1, element 11. Adams fails to teach the claimed invention of a liquid spray head and movement detector means.
